

Parish Council Allotments – Compostable Toilet Policy

Purpose:

To ensure the compostable toilet provided at the allotments is used responsibly and in accordance with UK environmental regulations.

Permitted Use

This compostable toilet is strictly for urine (wee) only.

No solid waste (faeces), sanitary products, wipes, or any other materials are to be deposited in the toilet.

Why This Matters

The toilet is designed for liquid waste only to comply with legal disposal guidelines and avoid contamination.

Solid waste requires specialist treatment and disposal, which is not permitted under current site arrangements.

Misuse could result in environmental harm and legal non-compliance.

If Misused

If the toilet is used improperly:

It will be immediately removed from the allotment site.

The Parish Council may reconsider providing toilet facilities in the future.

Offenders may be subject to allotment tenancy review.

Allotment Holder Responsibilities

Use the toilet only for urination.

Do not dispose of any other waste.

Report any misuse or damage to the Parish Council immediately.

Contact

For questions or to report an issue, please contact the Parish Manager:
Donisthorpe & Acresford Parish Council, Oakthorpe Leisure Centre,
Measham Road, Oakthorpe, Derbyshire DE12 7RG
