Dear Customer

River Mease Improvement Project - come and talk to us

You may already have seen our teams working near you as we begin a major project. We're helping improve the River Mease by transferring the cleaned used water from Packington and Measham Treatment Works to the River Tame.

The River Mease currently has a flow that's about twice as high as it should be naturally, and part of this is because of the amount of cleaned used water going into it from our works.

To help bring the Mease back to its natural condition, we're going to take the outflow from these plants and send it through a 24km pipeline we're installing across to the Tame. At the same time, we're going to be upgrading the two treatment works to further improve water quality.

Come and find out more

If you'd like to know more about what's happening, please come along to our community drop-in session at:

Packington Memorial Hall, High Street, Packington, Ashby-de-la-Zouch, LE65 1WJ

Tuesday 21 April 2026

between 4.45pm to 6.45pm.

It's your chance to ask us any questions about the work and for us to find out more about your area. Feedback from our customers is important to us – so we'd love to see you there.

How will this work affect me?

Work begins on the Packington section of pipeline this month. Most of this work is in fields and we've been working closely with the landowners. There'll be some points where we need to install the pipeline across a road and if that affects traffic near you then we'll let you know in advance.

Unfortunately, the footpath from Normandy Wood will close mid-April until late October 2026. This is to ensure a safe working area for the team who are working in the field behind, but the car park will stay open throughout.

Contact us

You can find further information on our website (QR code below) which will be updated as the project progresses at <https://www.stwater.co.uk/planned-improvements>

If you have any queries please contact me on 07703 718436 or email me at communitycomms@severntrent.co.uk.

Thank you for your patience during this project.

Yours faithfully
